

**IN THE SPECIFICATION**

Please amend the specification as follows:

[0001] It is important to note that while the present invention has been described in the context of a fully functional system, those skilled in the art will appreciate that at least portions of the mechanism of the present invention are capable of being distributed in the form of instructions contained or stored within a machine usable medium in any of a variety of forms, and that the present invention applies equally regardless of the particular type of instruction or ~~signal-bearing~~ medium utilized to actually carry out the distribution. Examples of machine usable mediums include: nonvolatile, hard-coded type mediums such as read only memories (ROMs) or erasable, electrically programmable read only memories (EEPROMs), and user-recordable type mediums such as floppy disks, hard disk drives and compact disk read only memories (CD-ROMs) or digital versatile disks (DVDs), ~~and transmission type mediums such as digital and analog communication links.~~
